## RoHS compliance

### What is RoHS?

The RoHS (Restriction of Hazardous Substances) is an EU Directive that specifically identifies six key materials so that manufacturers are held responsible for ensuring that their products contain controlled concentrations of the six substances restricted by the Directive.

The Six Hazardous Substances: Below 1,000ppm of Lead (Pb), Mercury (Hg), Hexavalent Chromium (Cr+6), Polybrominated Biphenyls (PBB) and Polybrominated Biphenyl Ethers (PBDE), and below 100ppm of Cadmium (Cd).

► **RoHS : Directive on the Restriction of Hazardous Substances in the Electronic Equipment (Effective on February 13, 2003)**

The screenshot shows a Microsoft Internet Explorer window displaying the LSIS website. The main title is "Environmental Policy and RoHS Compliance". On the left, there's a sidebar with links for "RoHS", "CEO's Message", "RoHS Compliance Declaration", and "RoHS Compliance Status". The main content area has a section titled "What is RoHS?" which defines it as an EU Directive. It also mentions "The Six Hazardous Substances: Below 1,000ppm of Lead (Pb), Mercury (Hg), Hexavalent Chromium (Cr+6), Polybrominated Biphenyls (PBB) and Polybrominated Biphenyl Ethers (PBDE), and below 100ppm of Cadmium (Cd)". There's also a link to "Refer to Related Regulations Laws for exceptions. LSIS circuit breakers are excluded." Below this, there's another section titled "Application" with information about products manufactured by LSIS.

### Application

Products manufactured by LSIS do not directly apply to the RoHS Directive.

However, small inverters imbedded in sport equipment and small breakers in large home appliances can be indirectly applied to the Directive.

LSIS continues to comply with the RoHS directive in order to establish environmentally friendly management policies and global competitiveness for our products.

According to the Law, eight of the 10 WEEE products excluding 'medical equipment' and 'control systems' must be RoHS compliant.

The screenshot shows a Microsoft Internet Explorer window displaying the LSIS website. The main title is "LSIS - Total Solution Provider - MCCB, MC, INVERTER, PLC". The header includes links for "Korean", "Chinese", "Japanese", "Help Desk", "Sitemap", and "Contact us". The main content area features a banner with the text "Always With Our Customers!" and "Good Change! RoHS compliance". On the left, there's a "POWER SEARCH" bar and a "PRODUCT CATEGORY" tree menu with categories like LS Industrial Systems, Low Voltage, Medium voltage, Protection & Measurement, PLC, HMI, Variable Frequency Drive (AC Drive), Electric Power Tools, Switchgear, and Transformer. In the center, there's a "FEATURED PRODUCTS" section showing images of "Susol series circuit breakers" and "Susol MS Contactors - TOP". At the bottom, there are "Download" and "News" sections with various links.
